Inside The House Of Windsor is a bombshell of a book that reveals the truth about the family's most controversial members, including Meghan Markle, Prince Andrew, and Prince Charles. Author Tina Brown has spent years researching the family, and she has access to a network of sources that few other journalists do.

The book opens with a look at Meghan Markle's relationship with the royal family. Brown reveals that Meghan was initially seen as a breath of fresh air by the family, but her popularity soon waned as she clashed with the palace staff and the British media. Brown also discusses the rumors that Meghan and Prince Harry were forced to leave the royal family, and she provides new evidence to support these claims.

Brown then turns her attention to Prince Andrew, who has been embroiled in a sex scandal for years. Brown reveals that Andrew was a close friend of Jeffrey Epstein, the convicted sex offender, and that he may have been involved in Epstein's sex trafficking ring. Brown also discusses the allegations that Andrew sexually assaulted a young woman, and she provides new evidence to support these claims.

Finally, Brown takes a look at Prince Charles, who is next in line to the throne. Brown reveals that Charles has been having an affair with Camilla Parker Bowles for decades, and that his marriage to Princess Diana was a sham. Brown also discusses the rumors that Charles is planning to divorce Camilla and marry his mistress, and she provides new evidence to support these claims.

Inside The House Of Windsor is a must-read for anyone who is interested in the British royal family. The book provides a wealth of new information about the family's most controversial members, and it offers a unique glimpse into the world of royalty.
