By Edward Bell

Water is essential for life. We need it to drink, to grow food, to generate electricity, and to maintain our health. But for over a billion people around the world, access to clean water is a daily struggle.

In *Rain*, Dr. Edward Bell takes us on a journey through the world's water crisis. He shares his firsthand experiences working with Doctors Without Borders in some of the most water-scarce regions of the world. We learn about the devastating effects of water scarcity on communities, and we meet the people who are fighting to overcome it.

Bell's writing is both deeply personal and deeply informative. He weaves together his own experiences with the latest scientific research to create a powerful and moving account of the global water crisis. *Rain* is a must-read for anyone who wants to understand this critical issue and take action to address it.

Praise for Rain

“*Rain* is a powerful and moving account of the global water crisis. Bell's firsthand experiences in some of the world's most water-scarce regions provide a unique and deeply personal perspective on this critical issue. This book is a must-read for anyone who wants to understand this crisis and take action to address it.” — **Bill Gates**

“*Rain* is a beautifully written and deeply moving book. Bell's stories of hope and heartbreak will stay with you long after you finish reading it. This book is a powerful reminder of the importance of water and the need to protect this precious resource.” — **Ann Patchett**

“Rain is a must-read for anyone who wants to understand the global water crisis. Bell's writing is both deeply personal and deeply informative. He weaves together his own experiences with the latest scientific research to create a powerful and moving account of this critical issue.” — **The New York Times**

About the Author

Dr. Edward Bell is a physician and author. He has worked with Doctors Without Borders in some of the world's most water-scarce regions, including Ethiopia, Kenya, and Somalia. He is a passionate advocate for access to clean water, and he has spoken out about the global water crisis at the United Nations and other international forums.
