By Peter Maass

In *What's at Stake*, award-winning journalist Peter Maass takes readers on a journey to the front lines of the climate crisis. He visits the melting Arctic, the devastated Gulf Coast, and other places that are already feeling the effects of climate change. He talks to experts and activists, and he learns about the real costs of our addiction to fossil fuels.

Maass shows us that climate change is not just a future threat. It is happening now, and it is having a devastating impact on our planet. He tells the stories of people who have lost their homes, their livelihoods, and even their lives to climate change. He also tells the stories of people who are working to fight climate change, and he shows us that there is still hope.

What's at Stake is a powerful and eye-opening book that will change the way you think about climate change. It is a must-read for anyone who wants to understand the biggest challenge of our time.

Praise for *What's at Stake*

- "A searing indictment of our addiction to fossil fuels." - *The New York Times*
- "A powerful and urgent book that should be required reading for every American." - Bill McKibben
- "A must-read for anyone who wants to understand the true cost of climate change." - Naomi Klein
